

Citizen Action Group

Bürgerinitiative Düppel-Nord

**we
had a
dream**

did you know that...

- ...a model community with innovative features has been planned for many years in Düppel-Nord and it is the only project of this nature currently planned in Berlin ?
- ...the two institutions for neglected children and delinquent juveniles, "Lindenhof" and "Jugendhof", were to be integrated into the model community ?
- ...detailed plans for the community are ready for final approval and construction could start in the near future ?
- ...the recently made known plan to construct additional housing for the official American community on almost 25% of the Düppel-Nord construction area will destroy the chances of realizing the model community ?
- ...many citizens from Zehlendorf and other districts are vitally interested in the model community and therefore do not wish to see American housing destroy the chances for its realization ?
- ...Berlin city and district authorities express their regret but state they are helpless in regard to wishes of the Military Government ?
- ...the Citizen Action Group has duplicated a letter to the American community and officials in the hope that it will evoke understanding for the problems involved ?
- ...the Citizen Action Group appeals with this leaflet to the American officials with the sincere hope that they will see fit to reconsider the alternatives already proposed and select another site of "equal merit" so that the model community can be realized in Düppel-Nord ?
